

## **WEIGHING PAPER**

**Its smooth surface guarantees the quantitative transfer of the material being weighed without any losses**

- Transparent paper
- Smooth and polished surfaces on both sides
- It can be used instead of weighing boat, avoiding the need of cleaning the trays

### **Applications:**

- Weighing substances

## **WEIGHING BOATS**

**Recommended for weighing and handling substances for nitrogen and/or fat determination using the Kjeldahl method**

- ✓ Manufactured with nitrogen-free parchment paper

### **Applications:**

- Food industry: determination of total proteins content in foodstuff
- Detection of Nitrogen in soil samples
  - The test method consist of 3 steps:
    - Digestion of the sample
    - Distillation to separate the nitrogen from the digested solution
    - Valorisation to quantity the amount of ammoniac
